# A CLOSER LOOK: SUPERIOR TECHNOLOGY

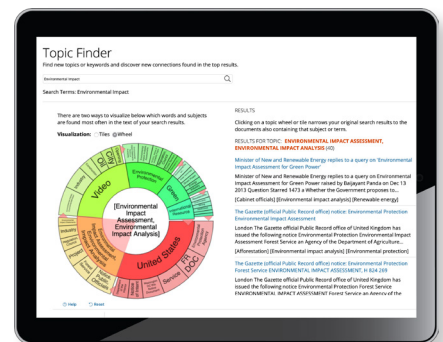

Gale databases are built upon intuitive and user-friendly platforms that features a range of tools that empower learning and research. These databases offer the following tools:

- **Collaboration tools** - integrated G Suite for Education and Microsoft Office 365 tools enable users to share, save, and download content—including highlights and notes
- **On-Demand Translation** - Content translation is available in 23 languages and platform translation in 34 languages—on-screen and read aloud.
- **Citation Tools** - integrated directly into the user's workflow, formatted citations can be easily imported from single or multiple documents to services like EasyBib or NoodleTools. MLA, APA, and Chicago-style citations are supported.

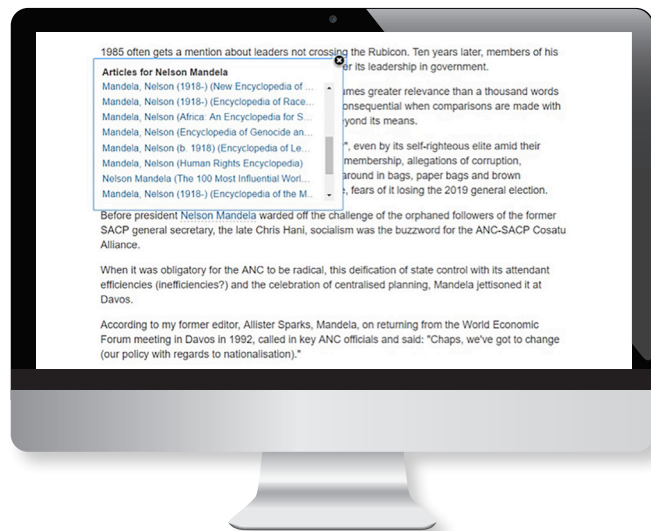

**Optimized Content** - responsive design fits the platform to any screen size on any device.

- **Topic Finder** - By grouping commonly occurring themes, this tool reveals hidden connections within search terms—helping to shape research by integrating diverse content with relevant information.

Topic Finder enables students to discover new avenues of study and teachers to demonstrate the many facets of a complex subject, like fracking

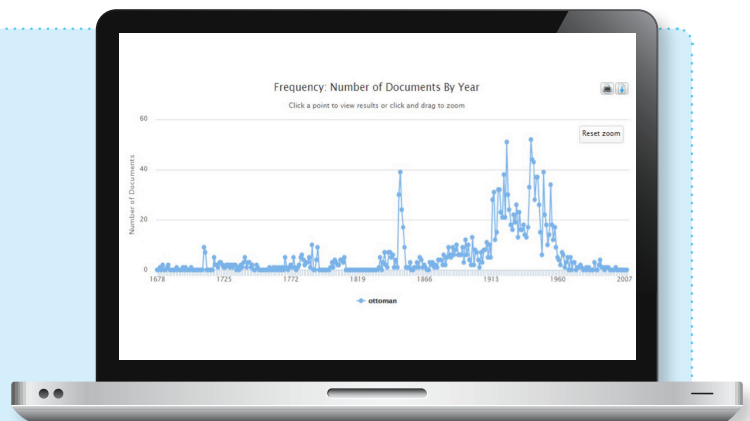

- **InterLink** - This technology is unique to Gale connecting periodical articles in Gale Academic OneFile, Gale General OneFile to the most relevant, most useful results within Gale eBooks, relating specifically to what users are currently reading

## READSPEAKER TEXT-TO-SPEECH TECHNOLOGY

Make resources more accessible. Audio files can be downloaded and saved onto any mobile device.

**Term Frequency:** Researchers can see the frequency of search terms within sets of content to begin identifying central themes and assessing how individuals, events, and ideas interact and develop over time.

## EMPOWER INSIGHT

From an undergraduate trying to Google their way through their first research paper to a Ph.D. candidate scouring primary source material to glean a key piece of insight, the users of Gale products are all learners looking to gain insight through research. Gale's content is focused on educational outcomes, not just mass aggregation. Our original, uniquely sourced content is expertly curated in alignment with popular and emerging curricula and research topics. Gale's contemporary and progressive learning resources and primary source collections help librarians connect educators and researchers with the knowledge essential to achieving exceptional learning outcomes.

## EMPOWER ACCESS

The Gale mission is to develop technology that fosters greater utility and access. Our products are thoughtfully designed and optimized to the study and research work flow of academic students across the spectrum. Gale is committed to supporting the integration of content into the classroom and enabling collaboration between librarians and faculty. Our innovative technology allows researchers to readily access content and uncover new research insights. With our technology, academic librarians can give learners access to knowledge that plays an essential role in their learning outcomes.

## EMPOWER OUTCOMES

At Gale, we measure our success by learning outcomes. Gale cultivates a culture of excellence and innovation and builds on a history of advancing the research process through a deeper understanding of customer—and user—needs. As a Cengage company, Gale is uniquely positioned to bridge the librarian-faculty gap and help drive the value of the library for institutions, faculty, and students. We believe by developing tools that connect libraries to end-users and end-users to libraries that we can help boost student achievement and learning outcomes.
